

We Passed The 3 Hour Test!

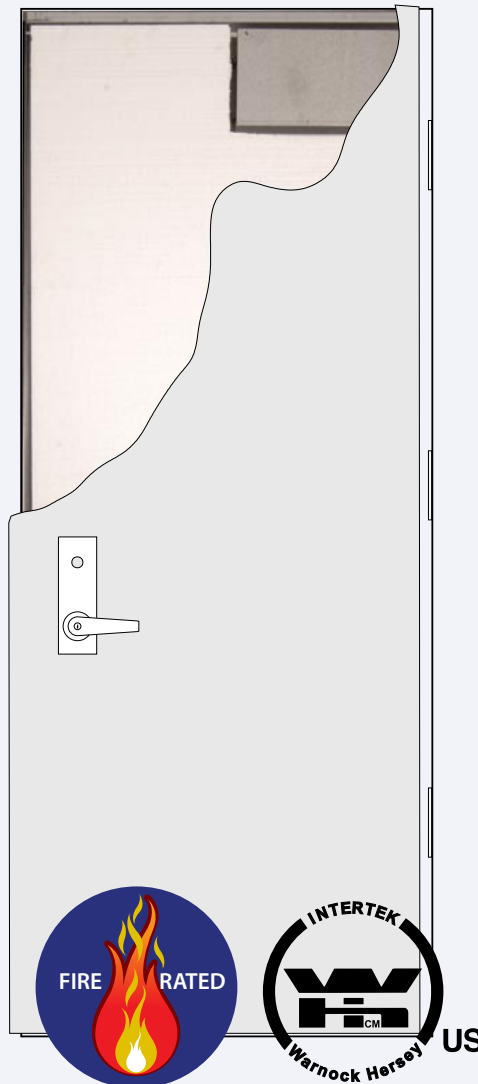

Announcing fire rated polystyrene core doors

Having successfully passed fire testing, Door Components polystyrene core doors are now available with three-hour fire ratings.

Other doors with a three hour fire rating are honeycomb, steel stiffened, temperature rise, and stainless steel doors.

As with all Door Components products, we specialize in custom orders and rapid delivery. And every Door Components product is 100% American made.

For more information about the new fire rated doors or other Door Components products, contact your Door Components representative.

ABOUT DOOR COMPONENTS

Since opening our doors in 1981, Door Components Inc. has manufactured custom hollow metal doors and frames, as well as a full line of quality hollow metal products. We are honored to provide products for some of the most prestigious building projects in the United States and overseas.
